

Breakout Sessions and Workshops

Candice and Trey have had the privilege of presenting at equipping events all over the USA and Canada for children's volunteers, children's leaders, children's pastors and pastors. They have presented at events hosted by the Church of the Nazarene such as General Assembly, "M" events, District Leaders Conference and TEACH. They have also presented at interdenominational children's ministry events such as Children's Pastors' Conference and D6 Conference.

Tell THE Story

People of all ages love stories. That's one reason Jesus told stories! Come and experience a simple yet amazing relational, discipleship tool to share God's Word called Tell THE Story. You will engage in it first hand and receive practical tools and tips that can be used to implement this model with children, teens and adults.

Controlled Chaos

Children's Ministry often involves a lot of controlled chaos. However, do you sometimes feel like you have more chaos than control? Do you find yourself wishing you had a few tips, tricks and tools to help maintain a fun yet effective learning environment? Come and discover some simple, basic classroom management techniques to help control the chaos.

Mom Connect

Working moms and stay-at-home moms have a huge responsibility in raising children and often feel isolated. Moms need each other for many reasons: tips, advice, prayer, companionship. In a word...they need support! In this session, you will learn about starting a support group for new moms and a playgroup for moms with preschoolers.

Celebrating Milestones

Are you looking for ways to mark significant times in the life of the families in your church? Are you looking for ways to help parents connect to each other? In this session, we will explore how we as the church can come alongside parents/primary faith influencers and encourage families through Milestones.

It's My Turn To Do WHAT?

HELP!!! How many times have you screamed this word in your head, out-loud or to your Children's Director or Children's Pastor? It's close to Sunday morning and it's your turn to lead Kids' Worship. Rather than wondering what you pull out of the dusty shelves in the Resource Room to occupy an hour and half, you can have a plan in place for worship and learning as the body of Christ. Come expecting to learn how to resource Kids' Worship with exciting tools and techniques that will help you minister to the kids in a way that reaches their hearts.

Rhythm, Retail and the Church

Rhythm is "a strong, regular, repeated pattern of movement or sound." What do the Church and Retail have in common when it comes to regular patterns of movement or sound? Are there lessons we can learn from Retail? We will discuss some ideas that might help us better serve the Kingdom of God.
